Children's Hospital Ambassador: Alyson Perez-McPherson

Alyson Perez-McPherson is a fourth grader at Homestead Elementary School. She was born in Tarzana, California and has been dancing since the age of two. Her grandma, our beloved ballet instructor, Linden McPherson, used to own her own studio in Redondo Beach, California. So Alyson grew up doing the Nutcracker and various other shows.

Alyson's family moved to Denver in July of 2021, two years later, just after her tenth birthday, they found out Alyson was sick. Alyson had to be taken to the ER with severe abdominal pain, which was coupled with lots of imaging and lab work. They found a 17 centimeter mass in front of her lower abdomen, with three additional smaller masses in the back of her abdomen, near her right kidney, which was also causing back pain.

Alyson's labs showed she had cancer, and she was then admitted to the hospital needing emergency surgery. The doctor was able to remove the biggest mass in its entirety, but in the process lost her right ovary. They couldn't remove the smaller masses because it was too dangerous at the time. Biopsies were taken which showed a positive lymph node for cancer, and they confirmed it was indeed a Germ-cell tumor. Alyson was discharged from the hospital on July 30th, 2023. She took a two-week recovery from this first surgery, returned to school in August, and then began her chemotherapy treatments. Alyson was enrolled in a clinical trial due to her rare form of cancer. She has since undergone chemotherapy and finished her fourth cycle on October 31st, 2023. Alyson underwent her second surgery this past December to remove her remaining tumors in her abdomen, and her labs are now stable.

Alyson's favorite subjects in school are science and art, and she has passions for ballet, gymnastics, and swimming. Her ability to make people laugh is infectious. Everyone that knows Alyson knows she is a courageous and resilient young girl, with a smile that can brighten anyone's day.
